## Regulation RoHS-II – 2011/65/EU and RoHS-III – 2015/863

Dear customer,

RoHS-II regulation did become effective by January, 2<sup>nd</sup> 2013.

RoHS-III regulation will become effective by July, 22<sup>nd</sup> 2019.

The main differences between RoHS, RoHS-II and RoHS-III regulations are:

- 1) The scope of the directive was enlarged.
- 2) CE-compliance-declaration must include the RoHS-II regulation.
  - 1) The substance-bans, declared by RoHS-II and RoHS-III, have been regarded by all FORTEC-products since the regulation has taken effect. Therefore the enlarged scope of the RoHS-II and RoHS-III regulation are irrelevant to FORTEC and no action must be taken.
  - 2) FORTEC has adapted the CE-compliance-declarations of all end products when the RoHS-II-regulation and RoHS-III –regulation came into effect and provides them for customer use.

FORTEC Elektronik AG hereby confirms that, according to current knowledge, all products sold by FORTEC Elektronik AG comply with the 2011/65/EU regulation and 2015/863 regulation.

These products meet the current requirements of the RoHS regulation for all 10 designated materials:

- lead (0,1%)
- mercury (0,1%)
- Hexavalent chromium (0,1%)
- Polybrominated biphenyl (PBB) (0,1%)
- Polybrominated diphenyl ether (PBDE) (0,1%)
- cadmium (0,01%)
- butyl benzyl phthalate (BBP) (0,1%)
- di(2-ethylhexyl)phthalate (DEHP) (0,1%)
- dibutyl phthalate (DBP) (0,1%)
- diisobutyl phthalate (DIBP) (0,1%)

Do not hesitate to contact us in case of further questions.
